

### **Sell Earn is binary MLM based plan**

1. Member can earn through the binary capping, in this MLM limit are dynamic like how much admin can pay on capping basis.
2. Binary capping also having different source of earning like if member complete his/her milestone frequently then also he/she can get more income, These all features are also dynamic.
3. If member join this MLM with minimum or more INR 6,000 then he/she can get immediate income and his/her up line members will also get income. This feature is also dynamic admin can change accordingly. But member join with less than INR 6000 purchase then he/she and his/her up line will not get income on the behalf of purchase.
4. Member can join in this system through three types A) Direct Through the website B) Sponsor member can add him/her through his/her dashboard C) Admin can add him/her through the admin portions.
5. At the time of joining two mandatory field are required when member add through the website or through the other member, That are sponser id and Epin.
6. Epin always admin create and he/she will assign after he/she gets the amount of the products.
7. If any member can do repurchase then he/she will get income and his/her upline also will get income , These features are also dynamic , admin can changes it accordingly
8. Conclusion are that member can earn through the binary chain system and through the his/her shopping or his/her below line shopping.

Now again we continue of practical example , that sameer is referring one person whose details are

Name : Govind Ramchandra

Phone: 7566643042

Email – [ross@infocentroidtech.com](mailto:ross@infocentroidtech.com)

Etc.

Now sameer has taken INR 10,000 from govind and sameer has purchased this INR10,000 Epin , Lets go through on Epin section

Sameer now has epin , and one more epin he has assigned to other person , but that person didn't add in his below line, because upper line was vacant .

Now this unused epin **36493034** **Samer has given to the govind , Sameer sponser id is 1SE7573269**

Now Govind can become member through two options

1. Either sameer can add him from distributor module

This registration page will come on website , Here govind will feel all details (Sponserid and Epin he has taken from sameer).

Now govind successfully become a member of sellearn company . Now once again we check genealogy tree of sameer .

Since sameer didn't do any caping so that , he will not get any binary profit through the govind

But govind join the system through the INR 10000 so that govind will get few income and its uppoer layer will get some income , Here sameer is a part of upper layer so that amount will be divided to all uppser layers , like above all distributors including sameer.

So that sameer may earn around INR86 only

Other income is yet to start , for this sameer need to expands his chaining . Now once again sameer refers/sponsored other person name is Sushmita . Now this situation once again sameer needs to take money from sushmita and needs to purchase EPIN from the admin . Suppose once again sameer has purchased epain from admin epin is

Now he has purchased INR 5000 epin so that direct sells benefits , new member and sameer will not get , Because according to the system if new member purchase with minimum INR 6000 or above then he/she and its upperline can earn .

Now sameer has INR 5000 epin
